

A.A.G. Stucchi: The Power of Transparency

Green is the clear choice

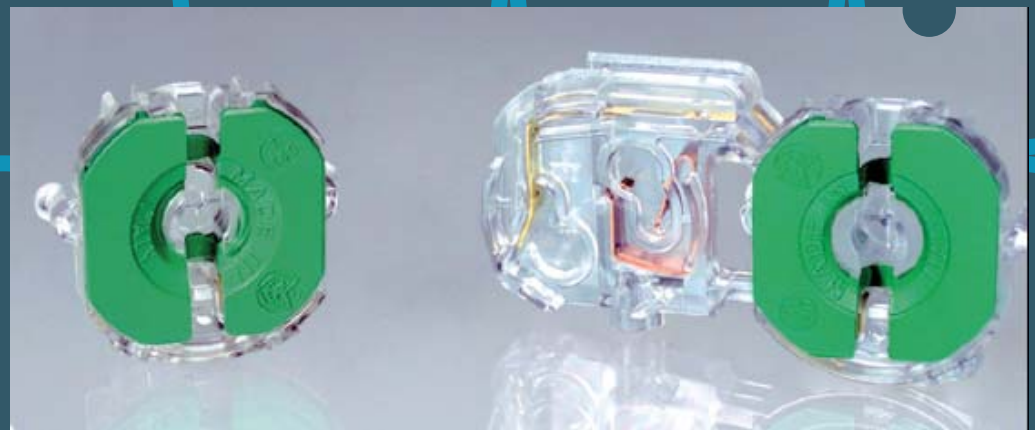

Lighting Australia is pleased to introduce the latest advances in G13 and G5 lampholder design from A.A.G. Stucchi featuring transparent polycarbonate and new G13 3000 Series 2-part construction. The signature A.A.G. Stucchi green lampholder rotor now associated with transparent polycarbonate heralds a new generation of smarter, more efficient lighting components and makes green the clear choice for progressive luminaire design and manufacture.

Transparency: Benefits at a glance

	Existing G13 and G5 series (white polycarbonate)	New TR G13 and G5 series (transparent polycarbonate)
Body thermoplastic material	White PC	Transparent PC
Eco-friendly	X	✓
No black spots	X	✓
More effective quality control	X	✓
Visual check of wiring	X	✓
Easier set-up of automatic wiring machines	X	✓
Aesthetics	X	✓

New 3000 Series: Benefits at a glance

	Existing G13 (white polycarbonate)	New 3000 series (transparent polycarbonate)
Body thermoplastic material	White PC	Transparent PC
Rated current and voltage	2A-250V	2A-500V
ENEC Approval	T130, Tm110	T140, Tm110
Only 2 plastic components	X	✓
Complete series with Top Test	X	✓
"Click and visual" system	X	✓
Transparency benefits	X	✓
