

Introducing Lumieo Infinity

Lumieo Infinity...endless diffusion opportunities

Following the success of its rigid sheet Lumieo Frost, Sewon has launched Lumieo Infinity—a continuous acrylic diffuser ideal for linear fixtures which can be easily cut to length on site.

Features & Benefits:

- Manufactured from high impact acrylic
- Very good durability and flexibility
- All the key diffusion characteristics found in the Lumieo range
- Any width up to a maximum of 150mm
- Range of thicknesses from 0.8 to 2.0mm
- Length produced to your project requirements
- Available in transmittances; 80%, 70%, 60% & 53%

Contact us for more information and our recommendations for the ideal light transmission, lamp hiding and glare control solutions for your individual project needs.
